

# CUSTOM ROD BUILDING NIGHT

Presented by  
Crazed Sandman and Flying Squirrel.

Are you ready for Catalina!

There is nothing like fishing with a fishing rod your little brave has built himself. Master rod builder John Mahan has volunteered his time to teach us the lost art of custom rod building. Each brave will get their own custom rod including red/blue/yellow colored thread, PIMU logo, feathers, and the braves name embedded into the rod.

Once the braves have completed their custom rods, they will be glassed and returned in time for the fishing derby in Catalina.

When: Thursday, June 4th 2009  
6 pm to 8 pm

Where: Edison Community Center

Material Fee: \$20
